OBJECTIVE

Passionate and detail-oriented full-stack developer with 1 year of experience in MERN stack development. Proficient in building scalable web applications using JavaScript, React.js, Node.js, and MongoDB. Strong problem-solving skills, a commitment to continuous learning, and a proven ability to deliver impactful solutions . Looking to join a team where I can grow and contribute as a developer.

EDUCATION

University of Calicut   Malappuram , Thenjipalam
Bachelor of Commerce   Nov 2017 – Apr 2021

EXPERIENCE

Brototype   Kinfra Technopark , Kakkancheri
Intern – Full Stack Development   Nov 2023 – Present

- Gained hands-on experience in programming and debugging web applications using JavaScript (ES6), React.js, Node.js, and MongoDB.
- Collaborated with software engineers and architects to design scalable web application solutions.
- Delivered practical, impactful solutions across diverse sectors, demonstrating strong problem-solving, technical proficiency, and teamwork.
- Participated in agile development processes and contributed to fostering an innovative and collaborative work culture.

Plyso - Plywoods and Hardwares   Ramanattukara , Calicut
Business Accountant   July 2022 – Oct 2023

- Managed the complete lifecycle of buying and selling processes, including vendor negotiations, product procurement, and maintaining accurate purchase records.
- Monitored accounts payable and receivable, ensuring accurate and up-to-date financial records.

TECHNICAL SKILLS

Languages: JavaScript (ES6+) , TypeScript

Backend Technologies & Frameworks: Node.js, Express.js , Session Management, Cookies, JWT (JSON Web Tokens), OAuth 2.0 .

Frontend Technologies : React.js, Redux, HTML5, CSS3, Tailwind CSS, Bootstrap, UI/UX prototyping with Figma

Database: PostgreSQL , MongoDB (NoSQL)

Design Patterns: Repository pattern , MVC pattern

Programming and Computer Science: Object-Oriented Programming (OOP) , Basic knowledge of algorithms, data structures, software development lifecycles, and programming principles .

Cloud & Tools : AWS (EC2, Route53), Git , GitHub .

API Integration: RESTful API design and development, API testing with Postman

Office Tools: Proficient in Microsoft Office Suite (Word, Excel, PowerPoint) for documentation, reporting, and presentations

ACHIEVEMENTS

- Delivered a full featured e-commerce module within 6 weeks, ahead of schedule.
- Completed 140+ LeetCode problems as part of a 7-month self-learning challenge, with a focus on preparing for technical interviews.
- Achieved 32 WPM typing speed with 98 percentage accuracy, improving efficiency in coding and documentation tasks.

Projects

RushGames | JavaScript, Node.js, Express.js, EJS, MongoDB
- Developed a comprehensive e-commerce application using Node.js and Express.js, incorporating full functionality for purchasing products, adding money to a user wallet, managing returns, cancellations, and refunds, and implementing coupon offers.
- Created an admin panel for managing sales, orders, and user information, with tools for monitoring and analyzing sales data.
- Utilized MongoDB for storing user, product, and transaction data.
- Integrated Razorpay for secure transactions and deployed the application using AWS EC2 and Route53.
- Debugged complex application workflows to ensure robust performance.

Mini Projects

- User Management App Using React-Redux
- OLX using ReactJS and Firebase
- Netflix using ReactJS and Firebase
- User Management App Using NodeJS ExpressJS
- Mercely 's Website with HTML ,CSS , Bootstrap
- Bombay 99 Website with HTML , CSS

Soft Skills

- Problem-Solving Analytical Skills : Strong problem-solving, analytical, and time management abilities.
- Passion for Technology : Committed to leveraging technology to solve real-world problems and continuously learning.
- People Skills : Effective collaboration and teamwork in cross-functional environments, with excellent adaptability and communication abilities.
